Hi,

I'm looking forward to working with you. I am a part time Associate for The Allison Group. My responsibilities primarily involve program coordination and information sharing. You will find me preparing individual participants for their learning workshops and working with administration to prepare for and wrap up programs. I love using online technology to speed things along. Email is the best way to reach me.

You'd like to know a little more about me? How nice of you to ask! I am trained as a fine artist in classical mediums but prefer to work with new technologies. In 1998 I received a Student Fellowship Grant from the Puffin Foundation for my Senior Project at the State University of New York at Purchase College. The grant was for the development of four life sized statues and an interactive website exhibiting the works, no small feat for web code of the late twentieth century!

From 2000 – 2006, I worked as the Assistant Director of a contemporary art gallery in Chelsea, NYC. At the gallery I worked with international artists and agencies coordinating and promoting public exhibitions. Since then I have maintained an independent business as a Web Designer and Art Director for various small-business and not-for-profit projects. My work in various projects has been featured in Artforum, Fox News, New York Post, Reuters' Photo of the Day, Sculpture Magazine, Tages Auzieger-Zurich, Tema Celeste, Time Out New York, The Village Voice, The Whitney Museum of American Art and The Museum of Modern Art, NYC.

Currently I am preparing for graduate school and studying for the GRE exam. I am looking into advanced degree programs in art and technology. I live in Brooklyn with three cats and my fiancé and have recently learned to knit. If you have any advice about knitting or the GRE, I'd love to hear from you.

Warmest regards,  
Heather
